

## **CAPABILITY STATEMENT**

OUR APPROACH - OUR DIFFERENCE

**KILT PROJECTS** HAS  
BUILT A REPUTATION AS  
A TRUSTED PARTNER  
IN BOTH THE MINING  
AND CONSTRUCTION  
INDUSTRIES ACROSS  
WESTERN AUSTRALIA.

# COMPANY PROFILE

Founded in 1999 and based in Western Australia, KILT Projects has built a reputation as a trusted partner in both the mining and construction industries.

We take great pride in delivering custom solutions for our clients, meeting deadlines by our fast turnaround times and maintaining an innovative and agile business model throughout the process.

The core strengths of our business rest on the trusted relationships we have fostered, having served many of our clients for nearly 20 years. We have maintained strong networks with industry partners due to our passion and commitment to providing a reliable service and delivering outstanding results through high-quality craftsmanship.

## VALUES

Our values are fundamental to the way we work each day. They guide our decisions and the way we serve our clients.

### SAFETY

Safety takes absolute priority in every aspect of our work. We look out for each other and take proactive action where necessary.

### SERVICE

We have highly committed and experienced teams that work collaboratively with our clients. Through open communication and high standards of work we build and maintain trusting relationships.

### SOLUTIONS

Innovative and progressive thinking is how we go about our business. Focusing on solution-driven ideas that empower us to make decisions when required.

# SERVICES

1

## STEEL FABRICATION

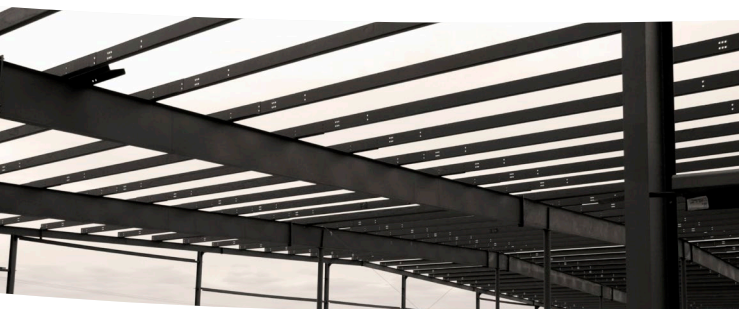

KILT Projects is a leading supplier of high quality structural and mechanical steelwork. We specialise in both custom and general steel fabrication with the capacity to fabricate components of all sizes.

Our facility maximises welding techniques to ensure quality in a safe and efficient manner. Fabrication components include but are not limited to:

- Walkways and stairways
- Tanks
- Silos
- Feeders
- Bins
- Guarding
- Cones
- Ductwork
- Structural fabrication
- Chutes
- Spooling
- Hoppers.

We are able to deliver steel infrastructure projects across various sectors and industries, including mining, commercial, residential and local Government/Shires.

From our fabrication facility in Midvale, Perth we have the ability to deliver innovative project solutions to meet our customers' needs and expectations both in-house and on-site.

**KILT PROJECTS** DELIVERS  
STEEL INFRASTRUCTURE  
WORKS ACROSS

Our designated team of project managers and designers ensure that every project is well planned, time-bound and expertly executed.

3

## SURFACE TREATMENTS

KILT Projects is a proud leader in providing surface treatments in Western Australia. With our custom-built facility in Midvale, featuring state of the art technology, it gives us the capability to reduce the rate of corrosion and abrasion, in turn extending the life of industrial assets.

Our team is certified in sandblasting, spray painting, galvanising and powder coating.

**SAFETY** TAKES  
ABSOLUTE PRIORITY IN  
EVERY ASPECT OF OUR  
WORK. WE LOOK OUT  
FOR EACH OTHER AND  
TAKE PROACTIVE ACTION  
WHERE NECESSARY.

# ACCREDITATIONS

KILT Projects is committed to the delivery of product and service excellence. Our focus is on the provision of quality assured work, beyond compliance.

We are proud to have established ourselves at the forefront of our industry and are united as a team to deliver high-quality work and services while providing safe and responsible working environments.

## QUALITY MANAGEMENT (ISO 9001)

Our Quality Management System enables the provision of products and services at a high-quality level, safely and efficiently.

## OH&S MANAGEMENT (ISO 18001:2007)

Safety takes absolute priority in everything we do. As a core value of our company, we believe in pro-active actions, and on-going training and development.

Our safety commitments include:

- Leading by example
- Identification and management of project risks
- Pro-active actions vs. reactive
- An injury and illness free workplace
- On-going training; and
- Strong communication.

## ENVIRONMENTAL MANAGEMENT (ISO 14001:2015)

The responsible environmental management of all projects plays a significant role in the long-term sustainability of the industry. We believe in respecting the environments in which we operate and ensuring that we leave a positive legacy in any of the projects that we complete.
